Vol 11 Suppl 6 2007

Severe sepsis and drotrecogin alfa (activated)

Supplement Editors: Antonio Artigas and Claude D Martin

This sole-sponsored journal supplement is supported by a grant from Eli Lilly and Company. The material presented herein is intended to be thorough, objective and balanced. The opinions and views expressed in this professional educational supplement are those of the authors and do not necessarily reflect the opinions or recommendations of the publisher or Eli Lilly and Company. Manuscripts were subject to complete and final editorial control by the authors and are being published with their full knowledge and consent. Lilly verified the accuracy and/or completeness of scientific information involving its research and reviewed manuscripts with regard to protecting the company's intellectual property rights. Dosages, indications, and methods of use for the products that are referred to in this supplement by the authors may reflect their research or clinical experience, or may be derived from professional literature or other sources.
